

Dear FCC,

I am writing to show my support of K-LOVE Radio stations 105.5, 89.1 and 100.9. I do not want to see a change to allow the FCC system to include the proposed LPFM stations expansion. My family has listened to and financially supported K-LOVE radio for over 5 years.

I believe if there were a change to occur to allow the LPFM stations to expand it would be a major deterrent to FM translators. My family would suffer from the potential loss of K-LOVE radio. K-LOVE radio translators provide a very valuable service to radio listeners by providing family friendly music that is not vulgar. Thank you for allowing me to voice my comments. Please consider that for every one comment there are more than likely many more voices who believe the same.

Sincerely,

Carole-Lee Winhold
